## SUMMARY

Final-year B.Tech Computer Science student and full-stack developer who ships production software for paying clients — including a multi-vendor e-commerce marketplace live on the Google Play Store. Builds end-to-end across React, Node.js, Laravel and Flutter, with applied computer-vision work in OpenCV and YOLO. Delivered **five commercial products generating ₹1,70,000+** in client revenue while completing the degree.

## TECHNICAL SKILLS

|                                  |                                                                    |
|----------------------------------|--------------------------------------------------------------------|
| <b>Languages:</b>                | JavaScript, Python, PHP, Dart, C, SQL                              |
| <b>Frontend:</b>                 | React.js, HTML5, CSS3, Tailwind CSS, GSAP, Responsive Design       |
| <b>Backend:</b>                  | Node.js, Laravel, PHP 8, REST APIs, Payment Integration (Razorpay) |
| <b>Databases:</b>                | MySQL, Firebase, Supabase                                          |
| <b>Mobile &amp; Desktop:</b>     | Flutter (Android & Web), PyQt6                                     |
| <b>AI &amp; Computer Vision:</b> | OpenCV, YOLO, TensorFlow, Google ML Kit, Tesseract OCR, CUDA       |
| <b>Tools:</b>                    | Git, GitHub, Docker, Linux, Postman, VS Code, Android Studio       |

## EXPERIENCE

**Founding Full-Stack Developer (Co-Founder)** 2023 – Present  
HMGenX

- Lead a small engineering team delivering full-stack web, mobile and desktop products for paying clients, owning requirements, architecture, delivery and deployment end-to-end.
- Shipped five commercial products generating **₹1,70,000+ in revenue**, including an Android and web marketplace published on the Google Play Store.

**Front-end Developer Intern** Jul – Sep 2025  
InLighnX Global Pvt. Ltd.

- Built a browser-based live translator in vanilla JavaScript with real-time speech and text translation, voice input, text-to-speech and LocalStorage history, using the Web Speech API and GSAP.

**Web Developer Intern** Apr – Jul 2025  
Konic Technologies

- Contributed front-end and back-end features to live client web projects alongside the delivery team.

## PROJECTS

**N Modern — Multi-Vendor E-Commerce Marketplace** Live on Google Play · ₹1,00,000

Flutter · Razorpay · REST APIs · Android & Web

- Built and published a full multi-vendor marketplace end-to-end from a single Flutter codebase, shipping to **Android and web**: vendor catalogues, brand/category/price filters, wishlists, ratings and reviews, **Razorpay payments**, direct WhatsApp ordering, push notifications and an N Coins referral-reward system.

**Nakshatra IIT-JEE Academy Website** Live · ₹10,000

Laravel · PHP 8 · MySQL · Tailwind CSS

- Delivered a production Laravel site at **nakshatrajee.com** with eight public sections and a custom admin panel that lets non-technical staff publish results, faculty, gallery and news without developer involvement.

**OMR Scanner & Mark Report System** Deployed · ₹40,000

Python · OpenCV · MySQL · Desktop & Mobile

- Automated JEE and EAMCET OMR evaluation at **98.6% accuracy, 2–3 papers/second**, generating detailed mark reports; sold to and deployed at **two institutions** (₹20,000 each).

**Plot Map Detection System** Client · ₹20,000

Python · YOLO · OpenCV · CUDA · PyQt6

- GPU-accelerated YOLO pipeline detecting **~5,000 land plots from a map image in 3 seconds at 99.2% accuracy**, outputting exact coordinates and plot numbers; delivered as a PyQt6 desktop app for Sri Bramharamba Real Estate, Guntur.

**Lipi — Bharat Script Transliteration App** Smart India Hackathon 2025

Flutter · Google ML Kit · Tesseract / OpenCV OCR · REST APIs

- Cross-platform app for transliteration and translation across Indian scripts and English, with camera-based OCR for signboards, offline on-device models and automatic script detection at ~78% accuracy (SIH 2025, Problem Statement #25155).

## EDUCATION

|                                                                      |                           |
|----------------------------------------------------------------------|---------------------------|
| <b>B.Tech, Computer Science</b> — RISE Krishna Sai Prakasam, Valluru | Expected 2027 · CGPA 8.31 |
| <b>Intermediate (MPC)</b> — Narayana Junior College, Kandukur        | 2023 · 95.3%              |
| <b>SSC</b> — Narayana EM School, Kandukur                            | 2021 · 100%               |

## ACHIEVEMENTS & CODING PROFILES

- LeetCode**: leetcode.com/u/Rayyan\_Azeem · **HackerRank**: hackerrank.com/profile/Azeem07
- Certificate of Appreciation** from Nakshatra IIT-JEE Academy for the deployed OMR evaluation system.
- Multiple chess medals; district-level Kabaddi player.
