SUMMARY

Co-Founder & CEO of HMGenX and B.Tech Computer Science student, leading a team that delivers full-stack websites, mobile and desktop applications, and AI software & automation for real clients. Hands-on full-stack and computer-vision developer who has built, deployed, and sold multiple revenue-generating products — including GPU-accelerated YOLO / OpenCV systems.

EXPERIENCE

Co-Founder & CEO

2023 – Present

HMGenX

- Lead a team building **full-stack websites, mobile & desktop apps, and AI software & automation** solutions for real clients.
- Own end-to-end delivery — from client requirements through development to deployment — across multiple paid projects generating **₹60,000+ in combined revenue**.
- Drive technical architecture and hands-on development, specializing in computer vision (OpenCV, YOLO, CUDA) and full-stack engineering.

PROJECTS

OMR Scanner & Mark Report System

★ Deployed · ₹40,000

Python · OpenCV · MySQL / MongoDB · Desktop & Mobile App

- Built a **real-time application that scans JEE & EAMCET OMR answer sheets** using OpenCV-based bubble detection and auto-generates detailed, accurate mark reports.
- Deployed and sold the product to 2 institutions** (₹20,000 each); received a **Certificate of Appreciation from Nakshatra IIT-JEE Academy**.

Plot Map Detection System

★ Client · ₹20,000

Python · YOLO · OpenCV · CUDA (GPU) · PyQt6

- Delivered for **Sri Bramharamba Real Estate, Guntur**: takes a plot-map image as input and detects every plot, outputting **precise coordinates and the plot number of each plot**.
- Powered by a **GPU-accelerated YOLO object-detection model (CUDA)** with OpenCV preprocessing, shipped as a **PyQt6 desktop application**.
